Rich, its my understanding now that we have the data from Tate. We will still request ORC to get this for us.

Rich

Subject: Two Data Requests

1. Early this week I became aware of a possible data set we may not have in data base for the Dimock area. This data set is from the plaintiffs in the law suit with Cabot. I became aware of this data during a conversation with one of the residents who is involved in the suit. After leaving the resident's home I received a phone call from Tate Kunkle of Napoli, Bern, Ripka, Shkolnik and Assoc. Kunkle offered to forward me a copy of the analysis. I did some checking and it seems we may not have received this data set.

I am requesting that ORC request this data from Kunkle.

2. Cabot collected a Isotech sample at residen Ex. 6 - Personal Privacy a location that for various reasons EPA did not collect. We need this data.

I am requesting that ORC request this data from Cabot.k
